BLOCK ASSEMBLY DIAGRAM  
FINISHED BLOCK: 6" SQUARE

DIAGRAM 1

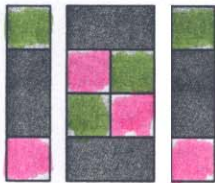

DIAGRAM 2

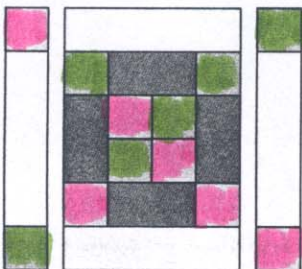

DIAGRAM 3

## MATERIALS

■ pink green, solid cream,  
and solid black scraps

## CUT THE FABRICS

- From pink, cut:
- 6— $1\frac{1}{2}$ " squares
- From green, cut:
- 6— $1\frac{1}{2}$ " squares
- From cream, cut:
- 4— $1\frac{1}{2}$ "x $4\frac{1}{2}$ " rectangles
- From black print, cut:
- 4— $1\frac{1}{2}$ "x $2\frac{1}{2}$ " rectangles

## ASSEMBLE THE BLOCK

Step 1: Sew together one green  $1\frac{1}{2}$ " square and one pink  $1\frac{1}{2}$ " square to make a pair. Press the seam allowance toward the green square. Repeat to make a second pair. Then join the pairs to make a Four-Patch unit (Diagram 1). Press the seam allowance in one direction. The pieced Four-Patch unit should measure  $2\frac{1}{2}$ " square, including the seam allowances.

Step 2: Sew black print rectangles to opposite edges of the Four-Patch unit (Diagram 2). Press the seam allowances toward the black rectangles. Then join a green square to one end and a pink square to the other end of each remaining black print rectangle. Press the seam allowances toward the black print rectangle. Then join the

units to the remaining edges of the Four-Patch unit. Press the seam allowances toward the black print rectangles.

Step 3: Sew cream print rectangles to opposite edges of the Four-Patch unit (Diagram 3). Press the seam allowances toward the cream print rectangles. Then join a green square to one end and a pink square to the other end of each remaining cream print rectangle. Press the seam allowances toward the cream print rectangle. Then join the units to the remaining edges of the Four-Patch unit to make a block (Block Assembly Diagram). Press the seam allowances toward the cream print rectangles.

Unfinished block is  $6\frac{1}{2}$ "
